

At Tony LaMartina Plumbing, it is our goal each and every day to provide the best possible customer service experience.

PROTECTION YOU CAN TRUST, FROM A FAMILY THAT CARES, GUARANTEED

A “family plumber” is someone you can trust and rely on as your family grows and changes—starting with your first home and continuing throughout life’s milestones. When Tony LaMartina Plumbing Company shows up at your doorstep, we bring with us a five- star service reputation and a long legacy of plumbing knowledge and expertise.

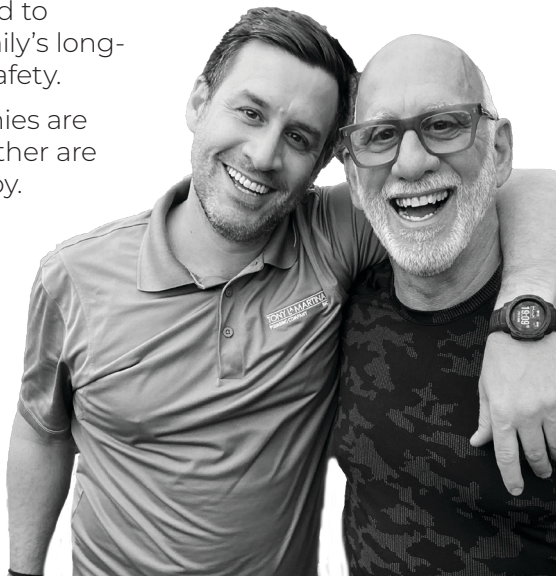

HISTORY OF TONY LAMARTINA PLUMBING COMPANY

Tony LaMartina Plumbing Company, founded in 1982, is a family-owned company that has been serving the plumbing needs of Saint Louis families for over 40 years.

My father Tony believed, “a good plumber is more than just a stranger who comes into your home to replace some parts, hand you a bill, and leave a mess behind.” He taught me that an excellent plumber is neat and courteous, guiding you through every issue and resolution, and staying committed to safeguarding your family’s long-term well-being and safety.

Not all service companies are created equal; and neither are the people they employ. Our highly trained and qualified plumbers and office staff will work hard to protect your home and make sure your family is always safe and comfortable.
